

## Toilet interiors

Shadbolt can supply panels and doors for complete toilet interiors.

- These include veneered cubicle panels, doors or door blanks, wall lining panels, and duct units designed to take sanitary fittings, conceal plumbing etc.
- Our service as usual includes full aesthetic control of the veneers for each project.
- We will also provide advice on the selection of panel and door substrates, veneers, finishes and detailing for the special needs of wet environments.

### Appearance - range of veneer styles

Toilet interiors are available in a wide range of veneers and different veneering styles. Examples are shown here. Generally any suitable veneer and finish as described on our website can be used in any style.

*Type 1 Veneer style in crown cut European oak (book matching)*

*Type 16 Veneer style in crown cut European oak (crown cut slip and end-to-end matching)*

*Type 3 Veneer style in crown cut American black walnut (book matching)*

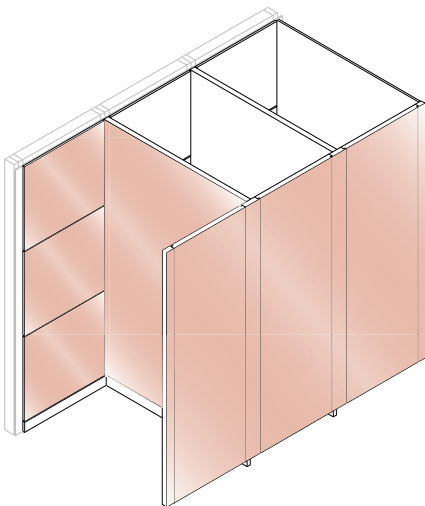

*Type 17 Veneer style in crown cut American black walnut (straight grain slip and end-to-end matching)*

### Cubicle layouts

Typical layouts are shown. For more details see our website.
